

MEMBER SUCCESS KIT

ABC MASSACHUSETTS CHAPTER
100 Unicorn Park Drive, Suite 1
Woburn, MA 01801

A Message from Our President

WELCOME – we're here to help you succeed!

ABC MA is dedicated to helping our member companies to be industry leaders and supporting them with a variety of professional programs and services. This

Member Success Kit is your guide to ABC's offerings.

We are proud that ABC MA is the largest construction trade association in the Commonwealth. There is strength in numbers, and ABC can leverage collective strength in ways individual companies can't on their own. ABC's reach also extends nationally, to more than 23,000 members in 67 chapters.

This Member Success Kit outlines resources we provide to our members, from the STEP safety management system to a full menu of educational programs through our education affiliate, the Gould Construction Institute (GCI).

With our workforce affiliate Building Mass Careers (buildingmasscareers.com), and our pre-apprenticeship programs and state-approved registered apprenticeship program, we can provide pathways to rewarding careers in construction and build a pipeline of talent for our member firms.

Our goal is our members' success. Take a look at what's contained here, and let us know if there are other ways we can help.

– Gregory F. Beeman, President & CEO

About ABC Massachusetts

The Massachusetts Chapter of Associated Builders and Contractors is the largest construction trade association in the Commonwealth, representing over 475 local general contractor, subcontractor, and supplier and associate companies. These companies employ more than 25,000 workers throughout Massachusetts. On a national level, ABC consists of 67 Chapters throughout the country representing more than 23,000 member firms. ABC's national headquarters is in Washington, D.C.

ABC is committed to fulfilling its founders' mission of promoting and advancing an open and competitive construction industry. ABC member companies subscribe to the merit shop philosophy that all construction contracts, both public and private, should be awarded to the lowest responsible bidder, regardless of labor affiliation. This philosophy provides construction buyers, taxpayers and consumers with the most value for their construction dollar and ensures equal work opportunities for all of the state's construction workers, nearly 80 percent of whom work in the open shop construction industry.

ABC offers a wide range of programs, services and benefits to its member companies, as highlighted in this Member Success Kit.

ABC is committed to supporting an open and fair construction industry, and to helping our members succeed to the fullest extent possible.

GOVERNMENT AFFAIRS

Why Protecting Free Enterprise Matters — YOUR BUSINESS DEPENDS ON IT

ABC Is Your Voice at All Levels of Government

Our mission is to advance the merit shop construction philosophy, which encourages open competition and a free enterprise approach that awards contracts based on merit, regardless of labor affiliation. We work with elected and appointed officials, administrative agencies, and governing bodies to foster informed legislative, regulatory, and administrative decisions.

LEGISLATIVE PRIORITIES

We support legislation and policies that ensure a level playing field for all qualified contractors. We work with elected and appointed officials, administrative agencies, and governing bodies to foster informed legislative, regulatory, and administrative decisions.

GOVERNMENT ADVOCATES

ABC has professional, respected advocates on Beacon Hill and Capitol Hill, which includes the Executive Branch and regulatory agencies like the Department of Labor and the National Labor Relations Board. The ABC Legislative Action App easily allows you to contact your elected representatives.

YOUR INVOLVEMENT MATTERS

The more actively engaged members we have, the more successful we will be. Consider joining our Government Affairs Committee. If you have identified a law or regulation making it unnecessarily difficult for you to do business, GET IN TOUCH WITH US.

While you are running your business, we focus every day on the legislative and political process that affects your business!

(781) 273-0123 | www.abcmass.org

ACTIVE ABC & GCI COMMITTEES

Being part of an ABC MA committee is a great way to develop new skills, develop relationships with fellow members and help shape the organization's activities. Take a look at our committee descriptions below and reach out to us to learn more about how you can make a difference.

Membership Committee

- Develop programs, materials and incentives which focus on enlisting new members
- Focus on retention and recruitment
- Handle evaluation of financial incentives of membership & strategy for membership yearly membership drives

Government Affairs

- Monitor legislation, develop response strategies, and communicate to members on pertinent issues
- Review legislation for impact on members and make recommendations to the Board of Directors

Young Professionals Group

- Mission is to engage personnel at all levels of member companies who will gain professionally through active participation which will lead to stronger, better run member companies and more vibrant ABC organization
- Participation is open to all individuals from company presidents to future managers

Veterans Committee

- Mission of our Veterans Committee is to help returning vets consider a career in Construction
- Committee members will be in place to mentor fellow vets contemplating a construction career
- Our Veteran's Committee will also participate in charitable and other veteran-related public events

Programs, Events & Marketing Focus Group

- Acts as a sounding board for marketing strategies and tools, develop and share innovative ideas, and provide feedback on marketing activities
- Assists in developing and implementing events of value to current and prospective members with a goal of increasing member engagement and growth
- Works with Chapter staff and membership to ensure events are relevant and worthwhile

Safety Committee

- A forum for ABC members to discuss construction safety, share best practices and pose questions to peers
- Features ABC member safety professionals as well as others from the broader industry and government agencies
- Generally meets quarterly and is open to all ABC member safety personnel and other interested employees of member firms

Human Resources Committee

- To provide an information-sharing forum for HR professionals and personnel decision makers to exchange ideas relating to the attraction and retention of employees within the construction industry

ABC Massachusetts Chapter

100 Unicorn Park Drive, Suite 1, Woburn, MA 01801

AWARDS & RECOGNITION

Excellence in Construction Awards (EICA)

National Excellence
in Construction®
Awards

The ABC MA and National ABC Excellence in Construction Awards honor the finest merit construction projects. Projects are evaluated by a panel of judges representing a cross-section of construction industry experts, including owners, architects, engineers and industry leaders.

Accredited Quality Contractor

The Accredited Quality Contractor Program publicly recognizes and honors those construction firms which have documented their commitment in five key areas of corporate responsibility:

- Quality
- Safety (STEP Gold, Platinum or Diamond Level Required)
- Employee Benefits
- Training
- Community Relations

STEP Program

Founded in 1989 as a safety benchmarking and improvement tool, STEP has evolved into a world-class safety management system that dramatically improves safety performance among participants regardless of company size or type of work. Participating ABC member firms measure their safety processes and policies on 25 key components through a detailed questionnaire with the goal of implementing or enhancing safety programs that reduce jobsite

incidents.

Teacher of the Year

The Paul McDonald Teacher of the Year award recognizes and celebrates a teacher's contributions to the Gould Construction Institute. In addition to performing their job at an exemplary level, the winner of the award demonstrates an extraordinary commitment to the GCI staff as well as to the apprentices in their classes. The winner is an expert in their field who guides students of all backgrounds and abilities to achieve excellence; collaborates with colleagues, students, and staff to create a school culture of respect and success; demonstrates leadership and innovation in and outside of the classroom; and is committed to improving education.

Beam Club

The Beam Club was established in 1966 to recognize ABC's top membership recruiters for their commitment to growing the association. By recruiting five new members, ABC members are automatically enrolled in the Beam Club by their chapter. Members receive one point for each new member recruited. Beam Club activity is ongoing from year to year, with members' point totals continually accruing and advancing members to the next Beam Club award level.

Top Performers

ABC's Top Performers lists recognize ABC member contractors' achievements in safety, quality, diversity and project excellence ranked by work hours, with special designations identified.

ABC MA's EDUCATION & TRAINING AFFILIATE

Building Careers in Construction Since 1983!

At the Gould Construction Institute (GCI), we strive to educate craft and management professionals using innovative models like daytime training and flexible learning with online and correspondence programs, as well as custom trainings to meet the needs of our members and the construction industry.

Private Occupational Licensed School

GCI is fully licensed by the Division of Occupational Licensure and the Office of Private Occupational Education.

APPROVALS:

GCI is approved by The Department of Labor, Office of Apprenticeship Division of Occupational Licensure, Office of Public Safety and Inspections, Board of State Examiners of Electricians, Board of State Examiners of Plumbers and Gas Fitters, Board of Examiners of Sheet Metal Workers, The Bureau of Pipefitters, Refrigeration Technicians, and Sprinkler fitters.

INSTRUCTION:

Provided by state-approved trade instructors and industry professionals.

REGISTERED APPRENTICES:

Companies and employees may participate in state-approved apprenticeship programs and utilize GCI courses to fulfill related instruction requirements.

We are also an NCCER Accredited Training Sponsor, and award globally recognized craft credentials and certificates upon completion of each level of study.

Each craft utilizes the NCCER curriculum and learning resources created by publishing partner Pearson. NCCER develops and publishes each world-class curriculum created by subject matter experts from industry and academia throughout the United States. Subject matter experts ensure exceptional training programs meet or exceed national industry standards.

CRAFT CHAMPIONSHIPS

ABC presents the Local and National Craft Championships each year to highlight the achievements of the people who represent the future of the construction industry. Craft trainees and apprentices compete locally, travel from across the country to demonstrate their superior skills, training and safe work practices, and to compete for top honors in their chosen craft.

PRE- APPRENTICESHIP

BUILDING MASS CAREERS (BMC)

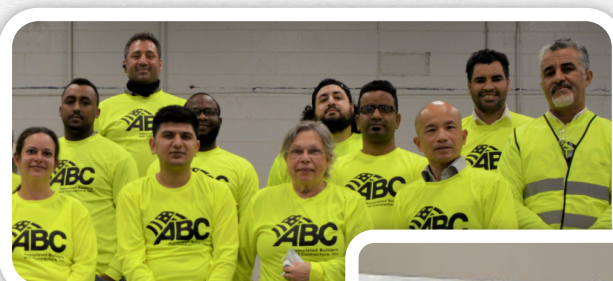

Your Future in the Construction Industry

The Building Mass Careers Pre-Apprenticeship Program is a pathway to registered apprenticeship exclusively for ABC members, it's approved by the Massachusetts Division of Apprentice Standards.

Building Mass Careers engages with all types of potential workers that could be added to our industry. BMC connects with the Massachusetts One Stop Career Centers, returning veterans, dislocated workers, new Americans with construction experience from their home country, out of school youth, people with disabilities and college graduates who are looking for a job in the construction industry.

Through our engagement at high schools and community-based organizations, we identify, and help students enroll and complete our pre-apprentice immersion course utilizing the nationally recognized curriculum from the National Center for Construction Education and Research (NCCER) CORE 6.0 construction. When these graduates complete our program, they bring almost 100 hours of apprenticeship credits to one of our member companies.

BMC can help you find people to add value to your company.

WORKFORCE DEVELOPMENT

Building Mass Careers is a registered apprenticeship program.

ABC MA is the program sponsor and operates the program in conjunction with the Gould Construction Institute, our training affiliate.

Through BMC, members can meet prevailing wage requirements for employing apprentices on state and federal public construction projects without having to establish their own company-specific program.

The BMC program also provides members with support and advocacy in dealing with government agencies and requirements.

Get to Know **ABC's STEP** Health and Safety Management System

MEASURE. STRENGTHEN. BUILD.

Take charge of your safety performance.

Q1

Submit your
STEP self-
assessment

Q2

Receive your
STEP results and
prepare your
AQC application

Q3

Submit your
AQC application
by Oct. 23

Q4

Final STEP self-
assessments are
due Dec. 15 (if not
applying for AQC)

MEASURE YOUR PERFORMANCE ON KEY COMPONENTS.

ABC's STEP® Health and Safety Management System provides contractors and suppliers with a robust, no-cost framework for measuring safety data and benchmarking with peers in the industry. Through a checklist comprised of key components proven to be effective at improving health and safety performance, the self-assessment tool helps participants identify real opportunities for scalable growth in their programs to lower their Total Recordable Incident Rates and ensure employees are returning home to families and loved ones every day.

Submit your STEP self-assessment in as little as 30 minutes! With your OSHA 300A in hand, the STEP self-assessment process is quick and convenient. Fill in safety performance data from your OSHA 300A form and answer a few questions regarding your safety training and practices. Then, self-rank your company's performance in key components by reviewing the criteria provided.

STRENGTHEN AND EXPAND BEST PRACTICES.

Once identified, growth opportunities spur deeper conversations between leaders and team members to develop a plan of action to implement best practices tailored to company needs. In the ever-expanding world of construction safety technology, continuously improve your program to ensure employees are set up for success now and in the future.

BUILD YOUR HEALTH AND SAFETY CULTURE.

Safety requires innovation, skill and talent in addition to a proven strategy to create industry-leading programs. Top performing ABC members actively build health and safety into their culture, fueling the power and purpose in their people to deliver for their clients. Leaders and employees commit to holistic safety programs ensuring the total human health of their team.

Get more from your health and safety program.

Take the **STEP self-assessment today:** abc.org/step

Did you know? STEP Diamond, Platinum and Gold members are eligible to earn the Accredited Quality Contractor credential. View details on back.

Become an **Accredited Quality Contractor**

The AQC credential provides national recognition to construction firms that demonstrate their commitment to corporate responsibility in quality, health and safety, craft and management education, talent management and community relations. Contractors that have earned STEP® Diamond, Platinum or Gold and have been in business for more than three years are encouraged to apply.

Gain points on National Excellence® in Construction Awards submissions for earning your AQC credential and become eligible for the ABC Top Performers lists. Contractors that successfully qualify as Accredited Quality Contractors are accredited for one year; annual reaccreditation is required.

Learn more at abc.org/aqc.

Stand Out as an **ABC Top Performer**

Companies honored as ABC Top Performers enjoy broad recognition they can share with current and prospective clients, fellow contractors, employees, the media and the local community.

ABC Top Performers demonstrate they:

- Sustain and grow their businesses, financially and economically
- Offer market-competitive compensation, benefits and retirement packages
- Commit to industry-leading health and safety
- Commit to workforce development, education and creating career opportunities
- Develop opportunities for their employees to achieve their career dreams
- Cultivate committed leadership

JAN. 2023

ABC is a true business partner in every sense of the term. ABC has guided us through the apprenticeship programs and licensure programs in the state of Massachusetts which can be somewhat difficult to navigate on your own.

The personal approach that ABC takes as far as communicating with its members/contractors is refreshing. As you know, the contracting world is very dynamic with very little time to make decisions.

It is every contractor's goal to make informed decisions quickly. If we have a question on licensing, prevailing wage rate calculations/deductions, and/or performance bonds, it is nice to know that we can pick up the phone and call ABC without hesitation. ABC personnel always gets back to us quickly and with the very helpful information for us.

Lastly, I will say that ABC is the voice for Merit Shop Contractors. This is something that is so necessary in today's world. We at J.S. Mortimer cannot possibly express how much we appreciate our membership in ABC and our relationship with ABC.

~ Jack Mortimer, J.S. Mortimer, Inc.

Our industry continues to face challenges in finding talent to meet the construction demands of today. We don't foresee this cycle changing any time soon. ABC has been with us and the industry every step of the way with robust programs to; identify, support, mentor and train candidates every day to get them ready for an amazing career and future not only at IESC but within the trades.

~ Luiza Mills,
Interstate Electrical Services Corporation

As it has with so much of daily life, technology has transformed the construction industry. We look to ABC to help us stay ahead of the curve in an industry that's changing faster than ever.

~ Melissa Bullock, Kaplan Construction

The construction industry is projected to continue to grow at a robust pace for the foreseeable future. ABC recognizes that, and their Future Leaders group is grooming to guide member companies through the challenges that accompany rapid growth.

~ Tiffani Tartaglia,
Resource Options, Inc.
